ance Notes on Codes and Abbreviations" appearing at the begin-  
ning of each regular issue of the PCT Gazette.

(54) Title: **SUSPENSION ARRANGEMENT**

(57) Abstract: There is described a suspension arrangement (1) comprising a plate (2). The plate is provided with grooves (17) at the bottom of which there are holes (20) and may be used for supporting a shelf support holder (83). At the back side, the plate is provided with mounting fittings (22) that interact with vertical support members (21). The grooves communicate with holes (20) along part of their length, the holes opening at the back side. The suspension fittings may hereby be mounted so that they extend through a hole (20) and bears with a first support part against the back side of the plate (2) and a second support part that bears against the bottom of the groove (17). As the grooves (17) may be disposed with arbitrary spacing, it becomes possible to dispose suspension fitting with very great flexibility with regard to mutual spacing and level on the plate.
